BM_BEGINGood morning,I hope this email finds you all well as you navigate the consolidation of schools in BVSD. I have a thought and perhaps this has already been considered; a dual language prek-8 in the City of Boulder. As you know, we have a high concentration of second language learners in the City of Boulder receiving their education at many elementary schools and in various educational models/settings. There is not a pre-k8 in the City nor has one ever been offered to our families. All Prek-8 schools lie outside the City boundaries. My thought is to offer a prek-8 dual language school to continue the BVSD vision of continuous dual language education with only one school enrollment change to high school for our students. If I could be so bold, I suggest Casey Middle School as a site to consider as we consolidate schools. I understand you have much more knowledge than I do about the consolidation process but I wanted to share my thoughts and advocate for the students and families in the City of Boulder.I truly hope you all find time to find time to unwind this summer as you step into a year of unprecedented change for BVSD next year.Respectfully,Hollene
