DAC members,

Thank you for engaging in such a positive and productive session on declining enrollment next steps at our February meeting!

We have a lot of follow-up items. Please take a few minutes to read this message in its entirety.

Here are the DAC Meeting Minutes (January 6, 2025) and DAC Meeting Slides (February 3, 2026).

Here is a summary you can share with your SACs:

1. DAC learned about the engagement plan to address declining enrollment challenges and generate community input on consolidation options. No decisions have been made. Because BVSD is being proactive, the problem we are trying to solve as a community is how to preserve the exceptional experiences students currently have access to. Families will have the opportunity to share their perspectives with senior BVSD leaders during school-specific and community-wide events. More details to come.

2. Below are key resources we recommend sharing with SACs/school communities:
* BVSD Declining Enrollment Video
* BVSD Declining Enrollment 2-Pager
* BVSD Community Engagement Timeline
* Board Presentations: Oct. 21, 2025 (video) and Jan. 27, 2026 (video)
* Declining Enrollment and Long Range Advisory Committee websites

3. Dr. Anderson also provided an update on legislative engagement efforts. Detailed information on BVSD's priorities can be found here.

Action Items
1. Please share declining enrollment updates and resources with your SACs. We will carve out time at future DAC meetings for ongoing SAC/school feedback.
2. Review the Basic Instructional Program policies. Here is review guidance. Engaging with SACs is optional. Be ready to share input live during our next DAC meeting!

Additional Opportunities
Please consider supporting the following and sharing with your SACs/school communities:
1. Impact on Education Volunteer Opportunity: Impact on Education is looking for volunteers to help high schoolers with resumes and mock interviews in late Feb/early March (4:00–6:00 PM) at Centaurus, Boulder, or Broomfield High. It's a rewarding way to give back and share your expertise. Sign up here. Questions? Contact Impact on Education Board Member and fellow DAC rep Polly Fields at fieldspollyk@gmail.com.
2. Curriculum Adoption for Grade 6-8 Social Studies: Click here to sign up to provide input on the new middle school social studies curriculum by joining the advisory committee or attending an open house.
3. Ask your state senator and representative to OPPOSE changes to how Specific Ownership Tax (SOT) revenue is calculated for school finance. Find contact information here and consult this 1-pager for talking points.

Reminders
1. If you have not yet discussed the Assessments and Grading policy questions with your SACs, please do so soon. Here is the form to submit responses.
2. The Great Education Colorado school finance 101 and advocacy session will take place this Thursday, February 12, from 5:00 - 6:30 PM at the BVSD Education Center. RSVP here: https://forms.gle/AepDQfZwDWFHTxAUA.

See you all next month!
