Hi Jenna,

After an initial review of the record(s) responsive to your request, BVSD staff has determined there are likely fees associated with your request.

BVSD can gather all minutes, agendas, and recordings from 1988-2000 regardless of topic and allow you to filter from there for school closing discussions. There is an estimated time of 9 hours associated with this method as these records do contain what would now be considered PII that will need to be redacted.

BVSD can also filter for school closing discussions within the records identified, but that would require an estimated 12 hours of work time to identify the relevant records and redact any PII within them.

You can also narrow your date range at this time to reduce the estimated costs.

Per BVSD Policy KDB and the Colorado Open Records Act, BVSD charges a rate of $30 per hour after the first hour for time needed to gather the requested record(s). This does not include any copying or printing charges if you are requesting to receive the records on paper.

Please let me know how you would like to proceed.

Thank you,

Becca Zaltman
