> Hi Jenna! Circling back on this request. I looked in my historical documents. From what I could find, we did not hold a Board meeting on January 18, 2000. Can you please submit a CORA request, with the information for which you are looking, that way we have a record of searches that are not readily available on our website. As an FYI -- We did hold a meeting on January 13th of that year. And, as a reminder please send media requests to Communications. Thanks for your understanding.
