Angela and team -

The web page that Randy sent is our central hub for information about our work around declining enrollment. About 2/3 of the way down the page you will see links to articles which ran in our district newsletter The Spot. Moving forward, declining enrollment information will be carried to our families via the newsletter that Randy linked. In the Resources box on the web page, there are links to other pages for related work, and I would encourage you to check those out as well.

Recently, Rob Price presented to the Superior Town Council and the Louisville City Council. See relevant links below:

Superior Town Council | Presentation | Video (Begins at minute 24)
Louisville City Council | Presentation | Video

This is the slide deck that Dr. Anderson and Lora De La Cruz have been using at the teacher/staff roundtable discussions. We have also been sharing information with our advisory committees using slide decks similar to those linked above.

Let me know what questions you have.

Having that context will help ensure that our work builds on the messaging already in place and remains aligned with the district's communications strategy.

Given the time zone difference, we could go earlier or later in your workday if that helps with scheduling. I am copying my assistant Dani and Sam L the project team lead.
