Hello BVSD Board,

I am a parent of a GT kid in fourth grade at Coal Creek Elementary School.

I support Boulder Valley Gifted and Talented's proposal that the BVSD school board require GT-informed training and support for all BVSD elementary teachers starting in the 2026-27 school year.

Regardless of which consolidation path BVSD takes in response to declining enrollment, every teacher in the district should be equipped to confidently meet the needs of every student in their classroom, including all the gifted and twice-exceptional students.

Thank you for your consideration and your hard work on behalf of the students of Boulder Valley School District.

Best regards,
Anneli Gray
