Dear BVSD School Board,

My name is Tiffany Boyd and I did my student teaching at Whittier Elementary in 1991. I later went on to teach at Mapleton Elementary and then back to Whittier as a literacy teacher.

Whittier is a remarkable school with so much to offer its students, parents, and our entire Boulder community! Whittier offers an IB program and Spanish instruction and is home to a broad range of families where multiple cultures and languages are honored and supported.

Whittier welcomes several community partners into the school to support teachers and students. Currently, as my role with Classrooms for Climate Action, Whittier is always eager to expand opportunities for their wonderfully diverse population of students and families.

Whittier has always had a strong staff retention which allows families to feel connected throughout their students' Kindergarten - 5th grade years. Students are a part of the Whittier Community for a lifetime and often come back to visit, volunteer, and celebrate events for years to come.

As the district is making difficult decisions about school consolidation, there are decades of Whittier students and staff who ask that Whittier remains open so it can thrive for years to come!

Thank you,
Tiffany Boyd
