Hi Heather, here is capacity from 2024-25, I'll be finishing up 2025-26 in about 2 weeks.

Capacities do NOT include preschool, which is viewed as an outside program from the district. Rather, rooms devoted to PK are viewed as unavailable classrooms for the purposes of the report. In other words, If there are two PK rooms at a school, the school's total capacity is reduced by about 50 (each room is loaded to 25 students) because those rooms are not available for K-5 instruction. Hope that helps.
